MARKET INTERPRETATION

The real estate market in Pierrefonds-Roxboro (Central East) is currently in a seller's market, with a moderate advantage for sellers based on current supply levels relative to sales activity. With approximately 3.9 months of inventory and an average selling time of 61 days, well-priced homes continue to attract strong buyer interest, while sellers generally benefit from favourable market conditions. During the 12-month period ending May 31, 2026, a total of 142 homes sold, while the median sale price reached \$620,000, remaining unchanged compared to the preceding 12-month period. Although current market conditions favour sellers, accurate pricing and effective property presentation remain important factors in attracting qualified purchasers and achieving optimal results.
