MARKET INTERPRETATION

The real estate market in Pointe-Claire (South East) is currently in a buyer's market with a strong buyer advantage, based on current supply levels relative to sales activity. With approximately 7.4 months of inventory and an average selling time of 67 days, buyers benefit from increased choice and negotiating leverage, while sellers may experience longer selling periods than in a balanced market. During the 12-month period ending May 31, 2026, a total of 33 homes sold, while the median sale price reached \$800,000, representing a 3.6% decrease compared to the preceding 12-month period. Although current market conditions favour buyers, accurate pricing and effective property presentation remain important factors in attracting qualified purchasers and achieving optimal results.

Sincerely,

Christopher Knight
